

Oniva™

From Our Farms to Your Flame

“From Farms to Global Kitchens”

About Us

Oniva Dehydrate Export is a group company of Oniva Group of Companies, one of India's leading processors, manufacturers, and exporters of agricultural commodities. With extensive experience in cultivation, processing, and value addition, the group has built strong expertise across the agricultural supply chain.

Our manufacturing facility is established and operated in strict compliance with global food safety and quality standards, enabling us to compete confidently in international markets. Equipped with modern technology and well-planned processes, our plant ensures consistent quality, hygiene, and efficiency at every stage of production.

Products, offering a wide range including flakes, chopped, minced, granules, and powder. In addition, we specialize in toasted and fried onions along with other dehydrated vegetables, catering to diverse international food industry requirements.

The operations of all group companies are strategically managed from Western India, with manufacturing activities centered in Junagadh, Gujarat.

Within a short span of time, Oniva Group has earned a strong reputation for supplying high-quality agricultural products and reliable services.

WHY CHOOSE US

Freshness Guaranteed

We ensure optimal temperature-controlled storage to preserve the natural freshness, color, aroma, and quality of onions and garlic for extended shelf life.

- **Naturally Grown**
